

**Faculty Position in Mechanical Engineering  
NORTHEASTERN UNIVERSITY  
Department of Mechanical and Industrial Engineering**

The Department of Mechanical and Industrial Engineering at Northeastern University invites applications and nominations for a tenure-track faculty position beginning in September 2012 at the Assistant or Associate Professor level. Applicants at the senior level with well-established, well-funded, and internationally recognized research programs will also be considered. Candidates are sought to expand the department's research efforts in the emerging areas of applied mechanics related to bioengineering and nanoengineering. A doctorate in mechanical engineering or in a closely related field is required. Excellence in teaching is expected. Applications should include a cover letter, a statement of current and future research interests, curriculum vitae, and contact information for at least three references. Applications will be reviewed until the position is filled.

The Mechanical and Industrial Engineering Department at Northeastern is a large and growing, academic enterprise comprising 37 full-time faculty with \$10 million in annual research funding, approximately 100 Ph.D. students, 400 MS students, and a total combined graduate/undergraduate student population of over 1,300. At the core of the Northeastern engineering education experience is our top ranked cooperative education program which contributes significantly to the integrated learning model in use in the College of Engineering. In addition, the Mechanical and Industrial Engineering Department is home to three federally funded research centers (of the eight federal centers in the College of Engineering): 1) The NSF Nanoscale Science and Engineering Center for High-rate Nanomanufacturing, 2) The NSF Center for Health Organization Transformation and 3) The VA New England Healthcare Engineering Partnership.

Northeastern is an urban university in Boston located among the nation's best hospitals, world renowned research institutions, and historical arts and music landmarks of the city. Northeastern University is a national leader in cooperative education and recently has enjoyed an unprecedented rise in the National Research University rankings in US News and World Report. Northeastern is also the recipient of an NSF-funded ADVANCE grant for promoting the careers of women in engineering and science. The university is currently expanding with plans to add 150 faculty to the current pool of talented full-time scholars.

*Northeastern University is an equal opportunity/affirmative action/Title IX employer. All persons are invited to apply regardless of race, color, gender, national origin, religion, disability, or sexual orientation.*
