

# Table of Contents

## Chapter 1

PROJECT DESCRIPTION AND SUMMARY OF THE RESEARCH ACCOMPLISHMENTS . . . . .	1
Objectives of the research . . . . .	1
Project team . . . . .	2
Selection of Pilot Watersheds . . . . .	3
Overall Accomplishments . . . . .	4
Scientific results . . . . .	4
Other Accomplishments . . . . .	7
Publications . . . . .	8
Conference presentations . . . . .	9
Books . . . . .	10
Reports . . . . .	10
International Cooperation . . . . .	14
Supplemental Keywords: . . . . .	15
Relevant Web Site: <i>www.marquette.edu/environment/Research.htm</i> . . . . .	15

## Chapter 2

ISSUES OF THE RESEARCH . . . . .	17
Urban Water Bodies and Their Uses . . . . .	17
Socio-Economic Conflicts of Management of Urban Waters . . . . .	18
Lack of Regulatory Framework for Urban Watershed Management . . . . .	19
Federal Stormwater Discharge Permit Regulation . . . . .	20
Probabilistic Short Term Nature of Water Quality Standards . . . . .	22
Driving Forces for Urban Watershed Management . . . . .	24
Population Demography . . . . .	24
Land Ethics of Citizens/stakeholders as a Driving Force . . . . .	25
Urbanization . . . . .	30
Impact of Imperviousness . . . . .	30
Urban Drainage . . . . .	31
Integrity of Urban Water Bodies . . . . .	33
Ecological Ramifications of Flows . . . . .	36
REFERENCES . . . . .	38

## Chapter 3

FLOW REGIME AND INTEGRITY OF URBAN STREAMS . . . . .	41
Introduction . . . . .	41
Flooding Events in the Milwaukee Metropolitan Area . . . . .	42
Reactions to Flooding . . . . .	43
Watershed and Flood Management Plans . . . . .	45
Flood Risk Assessment Methodology . . . . .	47

Watershed-Wide Estimation of Flood Risk .....	47
Assessment of Future Flood Risks .....	58
Results and Discussion .....	62
Watershed-Wide Flood Risk .....	62
Effect of Urbanization on Discharge-Frequency Relationship .....	64
Effect of Urbanization on Floodplain Expansion .....	68
References .....	69

## Chapter 4

ECOLOGICAL RISK .....	71
Introduction .....	71
Selection and Development of Ecological Risk Assessment Methodology .....	73
Methodology .....	74
In-Stream Water Quality .....	75
Sediment Quality .....	82
Evaluation of Future Loads using GIS .....	82
Results and Discussions .....	84
Data Description .....	84
Water Column Risk .....	87
Sediment Risk .....	89
Sediment - Water Quality Interaction .....	19
GIS Model .....	91
References .....	93

## Chapter 5

ECOLOGICAL INTEGRITY .....	95
Introduction .....	95
Ecological Integrity Assessment Methodology .....	95
Fish IBI .....	95
Macroinvertebrate IBI .....	97
Habitat Assessment .....	97
Morphological Changes by Urbanization .....	98
Results and Discussion .....	100
Data Description .....	100
Index of Biotic Integrity .....	101
Effect of Urbanization on IBI .....	103
Effect of Habitat on IBI .....	105
Ecological Risks and IBI .....	107
References .....	112

## Chapter 6

FLOOD RISK, ECOLOGICAL RESTORATION AND WILLINGNESS TO PAY: A CONTINGENT VALUATION APPROACH .....	115
Introduction .....	115
Alternative Approach to Benefit Estimations .....	116

Hedonic Housing Price Model .....	116
Contingent Valuation Method .....	117
Method .....	123
Focus Groups .....	123
Survey .....	125
Method .....	125
Sampling .....	125
Response Rates .....	126
Paths .....	126
Interviews .....	127
Geocoding .....	130
Empirical Findings on Willingness to Pay .....	137
Simulation of Models for benefit Estimation .....	142
REFERENCES .....	150

## Chapter 7

EXPLORING WTP THROUGH THE THEORY OF PLANNED BEHAVIOR .....	153
Theory of Planned Behavior Applied to WTP .....	153
Cognitive Structure .....	154
Research Applying TPB to WTP .....	154
Environmental Perspectives Applied to TPB and WTP .....	155
Biocentric Ethic .....	156
Duty Oriented Ethic .....	157
Awareness of Consequences .....	157
Method .....	158
Environmental Perspectives Measures .....	158
Theory of Planned Behavior .....	159
Topical News Attention .....	163
Results .....	164
Beliefs About Paying for Projects .....	165
Relationships Among TBP Components .....	169
Regression: Psychological Correlation to WTP .....	174
Cognitive Structure under a Microscope .....	179
REFERENCES .....	182
CONCLUSIONS .....	185
Specific Conclusions .....	186
Flood Risk Determination .....	186
Ecological Risks .....	186
Impact of Urbanization on Ecological Integrity .....	187
Contingent Valuation Method and WTP for Flood and Ecological Preservation/Restoration .....	187
Survey of Attitudes .....	188
