FOR IMMEDIATE RELEASE

Dr. James Benneyan named a Fellow of the Institute of Industrial Engineers at annual national conference

In recognition of his outstanding leadership in the profession of healthcare systems engineering, Dr. James Benneyan has been selected for the Fellow Award from the Institute of Industrial Engineers. He was among twelve to receive this honor at the most recent national IIE conference, which is held annually.

James Benneyan has been a member of both the Society for Health Systems and the Institute of Industrial Engineers for over 20 years. He began his career working as an industrial engineer at IBM, and has since moved on to become an associate professor at Northeastern University. At Northeastern, he has taught courses in simulation analysis and quality assurance, and has served as an advisor on many senior capstone design projects. A dedicated healthcare professional, Dr. Benneyan has served the Society for Health Systems as both its president, and a member of its board of directors. He has also held the position of technical vice president for the Institute of Industrial Engineers.
