Registration Override Request Form

This form is required for students who wish to register for a section that is restricted or has prerequisites

INSTRUCTIONS FOR REGISTRATION OVERRIDE REQUEST FORM

Complete the Registration Override Request Form and submit it to your faculty advisor and the course instructor (if required) for approval and signature. If approved, submit to the front desk of the Graduate School in 130 Snell, or email the signed scanned form to your designated academic advisor. You will be notified if we have any questions or when your request has been processed.

Our video streaming course sections are currently open to part-time students only. Full-time students attempting to register for a video streaming course will get a student attribute restriction. However, if a course in a term is *only offered in video streaming format*, full-time students may register for the course. Complete the "Registration Override Request Form" and send to the Graduate School so that we may override the restriction and register you for the course.

PART I: RESCTRICTION TYPES

- Field of Study or Program Restriction: Course is restricted to students of a certain program.
- College Restriction: Course is offered by another college at the University such as the Khoury College of
 Computer Sciences. Your registration will be processed pending approval from the college/instructor
 offering the course. For College of Business or Khoury College of Computer Sciences courses,
 please refer to the instructions: http://www.coe.neu.edu/student-services/computer-science-and-business-course-registrations.
- Level Restriction: Course is an undergraduate course. Under some restricted circumstances, COE graduate students may register for undergraduate courses, however graduate credit will not be given.
- Pre-requisite and Test Score Error Restriction: Course has a pre-requisite that student has not taken at
 Northeastern University. If you have waived the same pre-requisite course previously, please check off
 the box indicating that the waiver has been filed previously with the Graduate School. In this case, the
 request does not need to be approved by your faculty advisor. If the Graduate School does not have a
 waiver on file for you, submit the override request form to the instructor of the course and to your faculty
 advisor.
- **Signature Required:** This restriction is placed on courses where the instructor's signature is required for registration. Instructor's signature is required before submitting it to your faculty advisor.
- **Student Attribute:** The video streaming (V35) course sections are currently open to part-time students only. Full-time students attempting to register for a video streaming course will get a student attribute restriction. However, if a course in a term is only offered in video streaming format, full-time students may register for the course.

PART III: SIGNATURE

• **Signature Required**: This restriction is placed on courses such as Independent Study, etc., where the Instructor's signature is required for registration. Instructor signature required before submitting to the Graduate School.
