Dear ECE Master’s Students,

We look forward to welcoming you to Northeastern on September 6 10:00-12:00 in 20 West Village F.

Please note we have preregistered you for two graduate courses to better prepare you to succeed within the ECE graduate program. Pre-registering students for courses immediately immerses them into their program concentration. Two courses are considered a full-time load within ECE. You may be registered for a course that is hidden on the Registrar’s public schedule. Please ignore it. It is for administrative functions within the Graduate School and the ECE department.

During the first two weeks of September you will have the opportunity to make changes to this prearranged schedule. Please do not make any other changes over the summer.

You have been placed in the following classes, which can be viewed on your myneu schedule:

**Communications, Controls and Signal Processing**
*EECE7200: Linear Systems Analysis* and *EECE7204: Applied Probability and Stochastic Processes*

**Computer Vision, Machine Learning and Algorithms**
*EECE7352: Computer Architecture* and *EECEE7205: Fundamentals of Computer Engineering*

**Computer Systems and Software**
*EECE7352: Computer Architecture* and *EECEE7205: Fundamentals of Computer Engineering*

**Electromagnetics, Plasma and Optics**
*EECE7202: Electromagnetic Theory 1* and *EECE7203: Complex Variable Theory and Differential Equations*

**Microsystems, Materials and Devices**
*EECE7244: Introduction to Microelectromechanical Systems (MEMS)* and *EECE7245: Microwave Circuit Design for Wireless Communication*

**Power Systems, Power Electronics and Motion Control**
*EECE5682: Power Systems Analysis I* and *EECE7200: Linear Systems Analysis*

We look forward to seeing you this Fall!

Sincerely,
Graduate School of Engineering
