Academic Integrity

What is Academic Integrity?

• Honesty in your work

• Doing the work you said you did

• Providing a citation when you refer to someone else's work (paraphrasing)

• Providing a citation when you include someone else's words in your assignment (direct quotation)

• Presenting fair and true research material

• Taking a test with the knowledge in your brain, not that which you have written on a piece of paper, on your hand, in your phone, etc.
Academic Integrity

- **Cheating**: Using or attempting to use unauthorized materials, information, or study aids in any academic exercise (tests, papers, assignments, etc.).
- **Plagiarism**: Using as one's own the words, ideas, data, code, or other original academic material of another without providing proper citations or attribution.
- **Unauthorized Collaboration**: Instances when students submit individual academic works that are substantially similar to one another.
- **Participating in or Facilitating Dishonest Acts**: Any action taken by a student with the intention of gaining or helping another gain an unfair advantage.
**Academic Integrity**

*What would happen if there was an alleged violation?*

- Your instructor will ask you about your paper, assignment, test, etc.
- Your instructor will then contact OSCCR
- Staff in OSCCR will either send you a letter reminding you about the Academic Integrity policy, -OR- a meeting request to discuss the incident and review the policy
- 95% of the time, students take Responsibility for violating the policy
- In cases where a student does not take Responsibility, the case will be heard by the OSCCR staff member or a Student Conduct Board
- Sanctions can range from a written warning to Suspension or Expulsion depending on the severity of the incident, your status as a Graduate student, and disciplinary history
- The OSCCR process is separate from any decisions made about assignments or grades by the course instructor
Academic Integrity Resources

Prohibited Offense Definitions

- **Stalking** is willful and/or malicious pattern of conduct or series of acts directed at a specific person, which seriously alarms that person and would cause a reasonable person to fear bodily injury or suffer substantial emotional distress. Examples of stalking include, but are not limited to, conduct, acts or threats conducted in person, or by mail, phone, electronic communication, or social media.

- **Domestic Violence** is the intentional infliction of physical, sexual, or psychological harm on a current or former partner or spouse. Domestic Violence includes, but is not limited to, dating, intimate partner, and relationship violence.
