Welcome to the inaugural newsletter for second year students in the College of Engineering! We hope you find this bi-weekly newsletter resourceful. Best of luck this semester from COE Undergraduate Student Services!

Upcoming Spring Semester Dates!

April 7
Last day to drop a spring class with a W

April 13
Registration for fall classes begins

April 20
Patriot’s Day - Check with your professors about possible makeup class or assignments

April 22
Last day of spring classes

Fall Registration is Here... Meet with Your Academic Advisor!

1. Schedule an appointment through myNEU. If you are on co-op, choose the “phone” appointment option and have a conversation during your lunch break.

2. Be prepared for your meeting! Bring a curriculum guide, and cross off all courses you have taken and are currently taking. If you are having a phone conversation, have a curriculum guide handy for the discussion.

3. If you have questions and need to email your academic advisor, be sure to include your name, NU id number and the concern you have. This will help the advisor assist you best!

Sophomore Study Strategies: Get the Most Out of Professor and TA Office Hours

Before: Review your class notes, professors’ lectures and powerpoints. Read designated chapters in the textbook. Create questions on specific concepts and ideas, and bring practice problems when you go to office hours.

During: Ask specific questions. If you are confused and need clarification, ask! Complete challenging practice problems with the professor or TA.

After: Go back to the information that you addressed during your meeting. Do you understand the material? Complete additional practice problems.

*Hint: Visiting office hours once throughout the semester may not clarify your confusion. Schedule office hours into your weekly routine and continuously attend for improved confidence in the course!

Wise Words of Wisdom from Husky Engineers

“Don’t underestimate the importance of the information you’re learning this year. It may be the most basic material relating to your specific major, but this is the information all your harder classes will build off of. Learn it well.”

- Alyssa Bezreh, Electrical & Computer Engineering ’16

Resource Reminder!

The Northeastern University Library provides ample space for students to study, dependent on their learning style. You can also gain assistance from research librarians, view archives and print necessary documents. Reserve a group study room to review information with classmates. You can reserve a room through this link:

http://library.northeastern.edu/services/rooms-spaces

Spring Workshop

How Do You Manage Your Jellybeans? Enhance your time management!

TONIGHT
Wednesday, March 18
6-7pm; 415 Shillman

Between classes, work, volunteering and involvement with student organizations, it can be a challenge to balance all of your responsibilities. Learn new ways to schedule all of your tasks. Free pizza!
