Congratulations, this is the last part of Boston to explore before becoming a Boss of Boston.

Faneuil Hall/Quincy Market – the ultimate tourist stop to bring family and friends; however, food here is coincidently indescribable.

Lawn on D – do you see your social media page flooded with these? If not, google it up!

Daily Catch – the food here is absolutely on point, and stop by Mike’s Pastry or Modern Pastry for dessert.

Sophomore Success Strategy: Review Your Exam

When you receive a graded exam back, it is in your best interest to pay attention to the questions you answered incorrectly. Why did you get them wrong? What was challenging for you? Did you study the correct information? Try to solve the problem again and if you continue to get the incorrect answer, visit the office hours of your professor or TA. If you studied the incorrect information, be sure to clarify what will be on the next exam to ensure preparation.

Resource Reminder!

College can be an exciting, transformative time, but it can also bring challenges and concerns. Stress, anxiety and a range of emotions can be normal reactions to college life, but emotional, relational, or psychological difficulties can make it hard to be a successful student. When these types of issues occur, it is important to reach out and ask for help. Contact University Health & Counseling Services at 617.373.2772 or visit the first floor of the Forsyth Building.

Wise Words of Wisdom from Husky Engineers

“Many students get nervous if they don’t hear from employers within the first couple days. Try to keep calm some companies just interview later than others and just because you haven’t heard back yet, doesn’t mean you’re not a good candidate.”

- Kim Perrone, Civil Engineering ’18

“I began to realize how important it was to be an enthusiast in life. If you are interested in something, no matter what it is, go at it full speed. Embrace it with both arms, hug it, love it and above all become passionate about it.”

- Roald Dahl
