* ENGW3315 is an acceptable substitution for engineering majors.

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements, and if these are not fulfilled in engineering courses, should use General Electives to do so. General Electives are academic, non-remedial, non-repetitive courses.

BIOE Concentrations: Bioimaging & Signal Processing, Cell & Tissue Engineering, Biomechanics, or Biomedical Devices.

Please consult with your advisor: Eve Young - 220 Snell, 617-373-2154, e.young@neu.edu

Students will be required to meet with an undergraduate advisor to petition to enter the program. Students are encouraged to meet with their financial aid counselor to review any financial questions. 4 semesters of coursework at Northeastern University must be completed with a minimum GPA of 3.2 to join the BS/MS program. The registrar’s website provides a listing of degree requirements and the DARS system provides a degree audit utility for students.

Revised 1/22/2016
