Dear Graduate Student,

Congratulations on your recent acceptance to Northeastern University’s Department of Civil and Environmental Engineering (CEE). We are delighted that you have decided to join our program.

Please find below some important information to help you with the admission process, and facilitate your transition to our program. This information mostly pertains to MS students. PhD students admitted to the Civil Engineering or Interdisciplinary programs please find additional information here.

During the orientation program, scheduled for January 8, 2019, you will have the chance to meet with faculty, fellow students, and find out more about the Department.

**Assignment of Academic Advisor**

If your admission letter does not specify an academic advisor, you will be assigned an initial academic advisor during Orientation, based on your concentration area, to assist you in entering the program, choosing courses, etc. The academic advisors for the different areas and programs are listed below.

MS in Civil Engineering
- **Construction Management**: Professor Ali Touran
- **Environmental and Water Systems**: Professor Q. Jim Chen
- **Geotechnical/Geoenvironmental Engineering**: Professor Mishac Yegian
- **Structures**: Professor Andrew Myers
- **Transportation**: Professor Peter Furth

MS in Environmental Engineering: Professor Ameet Pinto

MS in Engineering & Public Policy:
- **Energy and Environment**: Professor Matthew Eckelman
- **Infrastructure Resilience**: Professor Matthew Eckelman

MS in Sustainable Building Systems: Professor David Fannon

**Curriculum and Class Registration**

Please remember to confirm your enrollment at Northeastern. You will not be able to preregister for classes (information below) until you confirm enrollment. You can confirm your enrollment by logging into your application account and paying the enrollment deposit.

All students are strongly urged to register for courses at this time to enable us to ascertain the likely enrollments in each course. Once you arrive on campus and consult
with your academic advisor, you can change your course selections as needed, including adding and dropping courses until the end of the second week of the term.

**For a detailed list of graduate courses** (core, electives, etc.), please refer to the CEE Graduate Catalog, available on-line [here](https://wl11gp.neu.edu/udcprod8/NEUCLSS.p_disp_dyn_sched). For course descriptions, please check [here](https).

**For the complete and updated calendar of Spring 2019 courses**, please visit the “Banner Dynamic Class Schedule”, maintained online by the Office of the Registrar: [https://wl11gp.neu.edu/udcprod8/NEUCLSS.p_disp_dyn_sched](https://wl11gp.neu.edu/udcprod8/NEUCLSS.p_disp_dyn_sched), select Fall 2017 for the term, then “Civil and Environmental Engineering” for Subject and “Graduate” for Course Level. For courses offered by other Departments please refer to the corresponding webpage. Or call the CEE Front Office at 617-373-2444.

**For completion of the MS program**, please read the degree course requirements described in the CEE Graduate Catalog as listed above. There are different MS degree options. Consult with your academic advisor regarding the degree options and course requirements. Typical recommendations for initial courses for MS students for different discipline concentrations are provided later in this letter.

**For completion of the PhD program**, please read the degree course requirements described in the CEE Graduate Catalog. Consult with your advisor regarding the core and elective course requirements.

**Sample Course Selections for the Spring 2019**

The following section provides examples of typical course selections for each concentration area. It is recommended to take two to four courses in a semester, with two to three courses being common for first semester students. Note that this is for your reference only, and we recommend that you consult with your advisor and look at the course catalog for more in-depth information, particularly to ensure that you have the appropriate prerequisites.

**MASTER’S IN CIVIL ENGINEERING**

**Construction Management Concentration**

*Required Core Courses Offered Spring, 2019*

- CIVE 5221 – Project Organization and Controls (2 cr, prerequisite needed)
- IE 6200 – Probability and Statistics

*Restricted and Other Electives Offered Spring, 2019*

- CIVE 5231 – Alternative Project Delivery Methods (2 cr)
- CIVE 7240 – Construction Equipment and Modeling
CIVE 7302 – Advanced Foundation Engineering
SBSY 5300 – Information Systems for Integrated Project Delivery

The full list of Required and Restrictive Electives for Construction Management is found [here](#).

**Environmental & Water Systems Concentration**

Course suggestions for Environmental & Water Systems Concentration Students:

*Required Core Courses Offered Spring, 2019*
- CIVE 7251- Environmental Biological Processes

*Restricted and Other Electives Offered Spring, 2019*
- CIVE 5275- Life Cycle Assessment of Materials, Products and Infrastructure
- CIVE 5300- Environmental Engineering Laboratory
- CIVE 5536- Hydrologic Engineering
- CIVE 5699- Special Topics in Civil Engineering: Climate Science, Engineering Adaptation and Policy
- CIVE 7100- Time Series and Geospatial Data Sciences
- CIVE 7264- Coastal and Nearshore Hydrodynamics

The full list of Required and Restrictive Electives for Environmental & Water Systems is found [here](#).

**Geotechnical/Geoenvironmental Engineering Concentration**

*Required Core Courses Offered Spring, 2019*
- CIVE 7302- Advanced Foundation Engineering

*Restricted and Other Electives Offered Spring, 2019*
- CIVE 5536- Hydrologic Engineering
- CIVE 7240- Construction Equipment and Modeling
- CIVE 7251- Environmental Biological Processes
- IE 6200- Engineering Probability and Statistics

The full list of Required and Restrictive Electives for Geotechnical Engineering is found [here](#).

**Structural Engineering Concentration**

*Required Core Courses Offered Spring, 2019*
- None

*Restricted and Other Electives Offered Spring, 2019*
CIVE 5522- Structural Analysis 2
CIVE 5525- Prestressed Concrete Design
CIVE 7302- Advanced Foundation Engineering
CIVE 7350- Behavior of Concrete Structures
CIVE 7354- Wind Engineering

The full list of Required and Restrictive Electives for Structural Engineering is found [here](#).

**Transportation Engineering Concentration**

*Required Core Courses Offered Spring, 2019*
- CIVE 5373- Transportation Analysis and Planning
- IE 6200- Engineering Probability and Statistics

*Restricted and Other Electives Offered Spring, 2019*
- CIVE 7382- Advanced Traffic Control and Simulation
- CIVE 7388- Special Topics in Civil Engineering: Informatics in Civil Engineering

The full list of Required and Restrictive Electives for Transportation Engineering is found [here](#).

**MASTER’S IN ENVIRONMENTAL ENGINEERING**

*Required Core Courses Offered Spring, 2019*
- CIVE 7251- Environmental Biological Processes

*Restricted and Other Electives Offered Spring, 2019*
- CIVE 5275- Life Cycle Assessment of Materials, Products, and Infrastructure
- CIVE 5300- Environmental Engineering Laboratory
- CIVE 5536- Hydrologic Engineering
- CIVE 5699- Special Topics in Civil Engineering: Climate Science, Engineering Adaptation and Policy

The full list of Required and Restrictive Electives for Environmental Engineering is found [here](#).

**MASTER’S IN ENGINEERING AND PUBLIC POLICY**

**Energy & Environment Concentration**

*Required Core Courses Offered Spring, 2019*
- Environmental Systems Modeling
- CIVE 5275- Life Cycle Assessment of Materials, Products, and Infrastructure

*Economics*
- ECON 7210- Applied Microeconomic Policy Analysis

*Public Policy and Analysis*
LPSC 7311 - Strategizing Public Policy
PPUA 6506- Techniques of Policy Analysis

Statistics
CIVE 7100- Time Series and Geospatial Data Sciences
IE 6200- Engineering Probability and Statistics
IE 7280- Statistical Methods in Engineering

Restricted Electives Offered Spring, 2019
EMGT 6225 - Economic Decision Making
ME 5645 - Environmental Issues in Manufacturing and Product Use
PPUA 5263 - Geographic Information Systems for Urban and Regional Policy
PPUA 7240 - Health Policy and Politics

The full list of Required and Restrictive Electives for Engineering and Public Policy is found [here](#).

Infrastructure Resilience Concentration

Required Core Courses Offered Spring, 2019

Environmental Systems Modeling
CIVE 5275 - Life Cycle Assessment of Materials, Products, and Infrastructure
CIVE 5699 - Special Topics in Civil Engineering (Climate Science and Technology Adaptation and Policy)
CIVE 7388 - Special Topics in Civil Engineering (Informatics in Civil Engineering)

Economics
ECON 7210 - Applied Microeconomic Policy Analysis

Public Policy and Analysis
LPSC 7311 - Strategizing Public Policy
PPUA 6506 - Techniques of Program Evaluation

Statistics
CIVE 7100 –Time Series and Geospatial Data Sciences
IE 6200 - Engineering Probability and Statistics
IE 7280 - Statistical Methods in Engineering

Restricted Electives Offered Spring, 2019
EMGT 6225 - Economic Decision Making
ME 5645 - Environmental Issues in Manufacturing and Product Use
PPUA 5263 - Geographic Information Systems for Urban and Regional Policy
PPUA 7240 - Health Policy and Politics

The full list of Required and Restrictive Electives for Infrastructure Resilience is found [here](#).
MASTER'S IN SUSTAINABLE BUILDING SYSTEMS

Required Core Courses Offered Spring, 2019
   SBSY 5200 – Sustainable Engineering Systems for Buildings (prerequisite needed that is offered in the Fall)

Restricted and Other Electives Offered Spring, 2019
   ARCH 5220 – Integrated Building Systems
   CIVE 5221 – Construction Project Control and Administration
   CIVE 5231 – Alternative Project Delivery Systems in Construction
   ME 5645 – Environmental Issues in Manufacturing and Product Use

The full list of Required and Restrictive Electives for Infrastructure Resilience is found here.

How do I register for classes?
Please watch the following webinars for instructions on how to register using your MyNEU account:

   • Course Search Webinar: http://www.northeastern.edu/registrar/webinar-search.html
   • Course Add/Drop Webinar: http://www.northeastern.edu/registrar/webinar-adddrop.html

What if my course is full?
Although rare, if a course is full, you may contact the course instructor and ask if an additional seat can be accommodated in the classroom. If a seat isn’t available in your preferred classes right away you can also join the waitlist. Enrollments are always shifting as students get co-ops or change their course registrations. To join a waitlist enter the class CRN (the 5 numbers in parentheses next to the course number above) directly into your registration sheet and hit submit. You will then have an option to select “waitlist” from a drop down menu. The waitlist system will automatically inform you when a seat opens up- just log into your account and accept it within the 24 hour time limit!

What if I am a part time student?
We recommend starting with one core course for your concentration.
Will I get a bill after registering for a course?

Yes, typically, your first e-bill is generated when you register for your courses. You will receive an e-bill from the University with instructions on how to pay the e-bill. If you have questions about payment, please contact the Student Financial Services office directly: http://www.northeastern.edu/financialaid/

How do I get a MyNEU account?

After you confirm your enrollment, you will be able to access your MyNEU portal using this link, http://myneu.neu.edu/cp/home/displaylogin. If you have not set up your MyNEU account, login to your electronic application and look for instructions to do so: https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantConnectLogin.asp?id=neu-grad

How do I schedule a campus tour?

Please contact GSE Student Services at 617-373-2711 or by email at: https://husky.desk.com/customer/portal/emails/new. An additional resource for campus tours is the Northeastern University Visitor Center. For directions and information please refer to: http://www.northeastern.edu/admissions/visit-campus/

Do you have another question about enrollment, your visa status or housing?

Please take a moment to review the FAQ page of the Graduate School of Engineering (GSE) Student Services: http://www.coe.neu.edu/graduate-school/graduate-faqs. As an example, you may search with the keyword (“housing”), look under the category “Newly Admitted Students”, or contact the GSE by phone at 617-373-2711.

For more information about beginning your graduate studies at Northeastern University, please read your acceptance letter in full.

We look forward to welcoming you in the Department of Civil and Environmental Engineering and the Graduate School of Engineering.

Regards,

Thomas C. Sheahan
Senior Associate Dean for Academic Affairs
Office of the Dean
College of Engineering
Northeastern University

Jerome F. Hajjar
CDM Smith Professor and Chair,
Civil and Environmental Engineering
College of Engineering
Northeastern University
